

LAEDERICH, Mme

SCHÜDLER

Worked in France about 1818.

The Heckett Coll., Valencia, Penna, contains a min., portr. of a lady in white, iv., sign.: M^m / Laëderich / 1818. It is well drawn, painted in the manner of the pupils of Aubry. The artist has certainly painted quite a number of min., as she shows none of the hesitations which would allow one to think of her as an amateur painter. It is very probable that she might be the mother of the painter of hunting scenes Laëderich who exd. at the Salon of Paris in 1843.
